

# New Rental Property Tax Relief!

## Incentive for Multifamily Owners in High and Low Cost Markets

### Key Provisions

---

Reduced assessed value for 10 years or more for rental buildings with 7+ units that:

- Are new construction or undertake qualifying rehab, and
- Keep a portion of units affordable to households at or below 60% of Area Median Income (AMI)

Establishes tiers of affordability and reductions in assessed value (see table on page 2 for details):

- **35% or more affordable units results in a 35% reduction in assessed value**
- **15% or more affordability results in a 25% decrease in assessed value**
- See table for a 20% affordability tier – available on a more limited basis

### Background

---

The Preservation Compact developed this statewide property tax incentive alongside partners, including Housing Action Illinois, Illinois Housing Council, Metropolitan Planning Council, and Enterprise Community Partners. The policy is part of the landmark affordable housing omnibus that passed the Illinois General Assembly in 2021. The legislation is currently awaiting Governor Pritzker's signature.

The property tax incentive legislation:

- Keeps rents affordable in higher cost markets.
- Promotes investment in lower cost markets.
- Applies to both market rate and affordable developers.
- Enacts the policy in Cook County (other counties can opt-out by a vote of the county board).
- Comes into effect January 2022 following the Governor's signature.

### Benefits

---

- **Addresses Affordable Housing Shortage:** Statewide the deficit of affordable and available rental homes for those with incomes at or below 60% of AMI is 160K.
- **Strategy for Reducing Racial and Economic Segregation:** In high-cost areas, the incentive makes it easier to create and preserve affordable rental housing. In historically disinvested communities, owners more easily qualify for financing to improve buildings and provide high-quality housing.
- **No Tax Burden Shift:** New construction and required rehab increase assessed values. The reduction applies to the higher, post-rehab assessed value, which prevents a decrease in property tax revenue.

## Summary of Incentives

	Tier 1	Tier 2	Tier 3 (Only available in downtown Chicago and some suburbs)
<b>Required Affordability</b>	15%	35%	20%
<b>Affordability Level</b>	60% of Area Median Income (AMI)	60% of AMI	60% of AMI
